Managing Database

Syntax:-

Creation of DB :→

CREATE DATABASE [IF NOT EXISTS] <database_name>;

CREATE DATABASE IF NOT EXISTS DB1;

USE DB1; (SWITCHING OPERATION)

CREATE TABLE <t1>

DROP DATABASE IF EXISTS DB1; → Best Practice

(can write DROP DATABASE DB1)

→ Returns total no. of tables deleted

Using Terminal

mysql -u root -p → password : → for MySQL

users

mysql >

SHOW DATABASES;

USE DB1;

SHOW TABLES;

- It is not possible to create 2 databases with same name
